Adam Schiff fucks and kills kids according to a federal wistleblower, Jenna Jameson and many others. LAPD has video of this:

https://www.reddit.com/r/freeworldnews/comments/ehhk5s/adam_schiff_raped_a_ten_year_old_black_boy_until/

Schiff dressed in drag, gave a black ten year old escort dropped off for him meth who died, then he fucked his dead body for over an hour and had Anthony Bourdain killed for witnessing the cleanup. Anthony tweeted that Hillary's ppl were following him when in reality it was Schiff's! Two muslims were seen leaving his apartment an hour before he died according to French intel. Bourdain said if he was going to kill himself it would be by heroin Bc he loved the high, proving he didn't hang himself. He was found in the same position as Jeff Epstein, Audioslave + Soundgarden singer Chris Cornell, The Linkin Park singer Chester Bennington (both killed for making a 10 part documentary about and their foundations exposing human trafficking) and Robin Williams were all found dead the same way RIP. Robin is the only one I truly believed committed suicide. So fucked how the funniest man in the world was the saddest inside... **John Podesta forced a kid to burn in a shower at full heat and mocked him as he cried + yelled at him... all on video too it's confirmed it's him by vocal recognition specialists. He locked the boy in there and made the kid scream John's name. The video is out on the internet it will haunt you forever if you watch it...**

You may not believe in this stuff, but I am going to tell you about it anyway. There's this whole group that are into past life regression hypnosis. Anyhow, a practitioner revealed that one of these people going through this turned out to actually be a demon - while in deep hypnosis. So your post is actually real. Even so, let's be honest, most are just humans who are heading down the wrong path because they believe it will benefit them.

I actually tried this past life hypnosis thing one time - it didn't work. I didn't go under. About 1/2 way through the whole thing, tried to put me under again. Did this countdown thing from 10 to 1. I didn't remember maybe 3 & 2 but when I heard 1, I popped back up again. So I was truly under for maybe 20 or 30 seconds and I remembered everything except for that part. So much for past-life regression hypnosis.

Check into MKULTRA. They are the real manchurians. I watched a vid - it was old black and white from the 60s I think. A real MKULTRA adult victim. He had partially broken out of it, but was still susceptible to being triggered. Would never answer a phone bc of fear of being 'triggered'. He explained how they used to do it. Extreme pedo abuse until split personalities develop. Then they program those new personalities. The MKULTRA program has advanced from the early days. The pedo abuse is no longer required, but the basic outline is the same. Probably changed the name, too. MKULTRA was too exposed for clown comfort.

BRING SELF DEFENSE PROTECTION

THIS CANNOT BE STRESSED ENOUGH

BE PEACEFUL BUT DEFEND YOURSELF

I'm not going to tell you what the laws are because I don't want to be accidentally wrong but look up the laws of what's legal where you're going and bring whatever you can.. I don't know if you can bring guns but if you can then maybe you should if you can do it legally..

if you bring a baseball bat bring a glove and baseball balls as well so that you have an excuse. It's generally a loophole..

if you have signs nail them too big wooden planks to hold up high and also to use as self-defense against antifa..

If you can you should bring makeshift Shields. Made out of metal trash can lids or something else.. maybe a sign made out of metal that can also be used as a shield..

fascist communist will be there and they will try to attack you so make sure that you're not defenseless when they show up in makeshift military gear like they always doo

bring goggles because they will probably have pepper spray. Bring your own pepper spray by the way..

Also bring a bottle of milk. Milk is a good way to neutralize the effects of pepper spray.. not drinking it but by pouring it on where you got sprayed

Go there for the protests have fun be peaceful but be prepared with things to defend yourself because there will be fascists and Communists they are trying to hurt you and it's time to put a little fear back in themm

and also if you are a big person or someone who can fight remember to protect the people that can't.. There will be elderly people there will be women there might be smaller people.. It's your duty to protect others that can't protect themselves against the Communists..

Plus, I'm bringing my 6' tall, very large, very trained husband who is filled with aggression and a sense of protection and was raised in the military. He's not looking for a fight, and will clearly tell people I'm the one you have to watch out for and he's there if I need help ;) I have put down people twice my size, and half my age. No. We cant allow the twrrorists to winn

when you start modifying and changing how you do things out of fear than the terrorists have wonn

That's why people say that Osama bin laden actually won.. We now have x-ray machines that make you virtually stripped naked at the airport and you can't bring more than an ounce of liquid on an airplane. The terrorists won that..

the minute you let them force you to stay home or force you into silence is the minute terrorists have wo

Cuz that was their goal the whole time.. women and the elderly should absolutely attend if they want to.. We need as many people and Patriots as we can get.. But they should also be protected..

And we can do bothh

You know the power boys will be there.. So if you have a little extra money for some makeshift Shields feel free to contact your local proud boys chapter and offer them.. ourr proud boys will help fight off antifa as welll

I hear you but it's time to *show force*. BRING YOUR GUNS. ALL OF US. This site's favorite term anymore is "larp" and unless we show real force then that's all this will be. Nobody has to shoot (first) but the threat has to be there and be *real* or it means nothing. These animals are more afraid of the faggotry of the left precisely because they know the right won't do shit.

They're surprisingly cheap on Amazon..

Although I'm not sure about the legality..

we know that communist areas tend to make any kind of weaponry for self-defense illegal.. So just make sure that you know what you're doing.

Another makeshift weapon that's definitely legal is to get a can of aerosol spray and a lighter and you can make a little makeshift flamethrowerr

it won't brutally harm anybody because it's just a little bit of flame but it'll definitely hurt them..

Even if you don't have a baton you can make a weapon out of anything. Just a hard stick or metal pole use for your sign or your American flagg

I agree with that attitude. I just looked into that pedo island photo with Justice Roberts in it. The article I found that included that pic debunked that Roberts was the guy in the foreground to the right. But, IMO, they kind of screwed up in that article bc the photo was actually a jpeg file which I put into paint and zoomed in like 400%. I could see his face. Yup, it's Justice Roberts right there at Epstein's Pedo Island with ole Bubba Clinton.

I call that an epic debunking FAIL. It makes me laugh, even!

Maybe Jizlaine is under protective custody doing the same thing. And maybe trump/military intel is building all this up to a giant crescendo of arrests.

Yeah, they aren't going to shut the metro and even if they do you can take the bus lines. The metro is generally fairly safe even if it breaks once in a while but when it does there is always shuttles between stops. People just need to realize that it closes down long before the bars do.

The first law, is that might makes right. If you have no might, you have no rights. You can whine about how unfair and unlawful our opponents are being, but unless you have the might to defend your rights, they won't care.

They've had advance notice in the past as well, the George Floyd riots and subsequent ones started way too fast not to not have some pre-planning. Likely they planned for unrest in that city and were just waiting for a convenient event to occur that they could blame. In the Kenosha one they were already arresting people who were from Portland on the first night of the riots and some of them were in vehicles with Oregon plates, how did they get there so fast?

[parent](#) [permalink](#) [save](#) [report](#) [block](#) [reply](#)

▲ 1 ▼

– [OconusLurex](#) 1 point 1 day ago +1 / -0

There were a bunch of antifa/BLM activists that had cash-apped their way from the west coast (especially Portland- about half the PDX activists) to be in DC for the BLM protests around 28 Aug. The Kenosha riots started on 23 Aug., so a lot of Oregon antifa were already en route. That's also why there was so much footage of all the riots; 2 of the major streamers were also headed to DC to cover those protests and were traveling through the Chicago area when everything popped off in Kenosha, and decided to stay and cover all of it.

The hood in DC cowers when MAGA arrives. Proud boys hunt them for sport all night. The few assaults we've seen are even less likely with as big as this protest will be. The problems this time will probably be from MAGA getting rowdier & provoking a national guard response.

Yea this is a bad sticky. Used to live in DC and the metro is fine but people should certainly have a contingency plan in case they shut it down. Do certain metro lines run thru bad parts of town? Yea sure but it's no different than literally any other US city and if you're not getting off on those stops (mostly in MD) then there shouldn't be a problem. If you're doing metro coming in from VA is probably better since none of those stops are thru bad areas if I recall.

Perfect post, summed up nicely. This is the swamp, so have some sort of backup plan, as I wouldn't put it past WMATA to shut down service just to screw us over if it looks like this thing is getting too big. But being that this is on a Wednesday and normies still need it to get to work or the liquor store, that's unlikely, but you never know. Also, the western half of the Red Line in Maryland is fine, and many people may be coming from that direction if driving to the area.

Maybe simply park 5-20 miles away, and use a portable scooter/bike to finish the rest of the journey. Some scooters can go up to 30mph which will get you there in no time.

Still some decent prices at the Wharf area and Holiday Inn near the Mall. Other ways in: Chevy Chase Embassy Suites goes right into the DC metro with a mall and good food as well. Tysons Corner is a little more upscale. Crystal City will always have a room somewhere. Alexandria Va has the usual chain hotels. DO NOT stay in Adams Morgan or SE dc, they will kill you.

They shut down almost all stations around the Mall and made people walk. This delayed people showing up so they could show the pictures of few people there because they were all held up at the checkpoints and inside the overloaded stations blocks away from where they were going.

There are less physically capable people who will find it hard to stay that far out. They will set up blockades at least 3/4ths of a mile out from where the action is. During the last MAGA march too all of the parking garages were closed. If you have a hard time walking that far, consider getting a hotel close to the action.

EVERYONE: THE MEETING SPOT IS FREEDOM PLAZA. THE AREA IS GOOD. NO HOOD. We are seeing a LOT of fear posts from people that have NOT been to DC and haven't attended the previous marches. I have been to them all.

If you are taking metro IF IT IS RUNNING THAT DAY, you can take the ORANGE, BLUE, OR RED LINES DIREXTLY TO METRO CENTER and get off in a clean neighborhood just 2 minutes walk from freedom plaza and within view of the capitol and the white house.

The other lines are going to require you to hope off at the Verizon center/CHINA TOWN stop and jump trains to the red line towards shady Grove to get to metro center.

If the trains are running DO NOT BE AFRSID TO TAKE THE DAMN TRAIN. COMPARED TO NEW YORK THE DC METRO IS PRESTINE.

I'm not a shill, but common sense dictates that if you go armed in to DC, the Capitol Police are going to fuck you up. It's against the law, and therefore above and beyond a "protest". I'm not saying "don't", I'm saying "don't at all be surprised when it happens" and "you'd have no one to blame but yourself".

Why would you give them a reason? Remember, you're going to protest the government on a very touchy day - whether or not Silver Fox and Trump pull off getting RINOs to actually do shit; the police and probably SS, National Guard, and maybe others will also be there and around there all on high alert.

I hear you, and if this were 4, 2, or even 1 year(s) ago, I'd be more inclined to agree.

The country is under siege from its own government and the government from China.

They have attacked us biologically, legislatively, economically, journalistically, and culturally.

The results of the election are fraudulent, and yet the EC put Biden in anyway.

Where do you draw the line? At what point do you think we are past the point of no return?

I'm telling you, that time is here and now.

There is no Republic left to fight for if the CCP takes control of this country through their puppet Joe Biden.

The police have delegitimized themselves by oppressing and attacking law abiding citizens whilst allowing the communists and anarchists to run amok.

Their laws are useless and unjust.

Think about what the Founding Fathers would have done in this situation.

Then do that.

When he says "grab your guns and let's take this bitch back" - that's when you grab your guns and take the bitch back.

As a pede living here and riding red line for 20+ years, I gotta say this post is a bit too paranoid. They're not going to lock the fences (until after operating hours), that would go against every over reaching government policy about public transportation they already have in place.

It's called the Metro, not the DC Subway so you know this OP pede isn't local. As always, travel in groups to maintain safety, stay away from Northeast DC and Takoma Park (MD) and you should generally be fine. Always read the Airbnb or hotel reviews to get an idea on neighborhood.

If really worried, have a backpack where you can store all your Trump clothing/accessories until you're in an area with a lot of pedes and can wear proudly without fear.

Gun laws are strict as hell here. Maryland you can't have the ammo and gun in the same part of the car (dumb!) Virginia is much better in that regard despite loser Ralph Nordam trying to ruin everything.

DC gun laws: https://en.m.wikipedia.org/wiki/Gun_laws_in_the_District_of_Columbia

Once again, always travel in numbers. That is the highest form of safety you can give yourself.

Dude the metro is not that bad. Driving into dc is going to be way more confusing and frustrating for out of towners.

The north part of the metro is perfectly fine, pretty much all of Virginia is fine, it's just the south east on part and the far East are the worst parts.

Now our metro is notoriously unreliable and slow, so keep that in mind.

DC will be likely shutting down most of the streets in the downtown area so you'll only be able to get so far by car.

– [Swampthang](#) 4 points 1 day ago +4 / -0

The bottom half of the yellow line is all good. Georgia ave/petworth, columbia street, u street, and Howard University/shaw aren't horrible, but they are far from lovely. You should assume that the area around Howard University is BLM territory, not that that's going to be an issue, it's usually antifa that's the problem, but you should assume it. Stay away from the trinidad/ gallaudet University area, it's probably the worst area in the city. Generally the south-east and middle-east are the areas the should be avoided. Anything south of the anacostia River is definitely a no-go. Stay away from Prince George's county Maryland altogether Montgomery county Maryland mostly fine, with Glenmont, Tacoma Park and Forest Glen being the semi-sketchy stops.

Most of va is fine. Va is more expensive and wat more confusing and difficult traffic.

Your best bet is to get something in the Tysons corner area, rockville, Bethesda, Chevy Chase, arlington, Alexandria, downtown DC, Pentagon city, falls Church, Vienna, Adams Morgan, DuPont, Glover park, American university, and the Georgetown area.

Seriously, don't depend on ANYTHING local for food, shelter, or transportation. They will shut down roads and cut you off and then you're very vulnerable - to say nothing of being unable to get to the capital.

This is a do-it-yourself operation, patriots. Count on nothing in DC to help you. The mayor is a traitorous little piece of scum and will do all in her power to shut you down - or worse.

They don't have the numbers, but they prey on the perimeter and the weak and alone. They also have a free pass to do what they want

I've been driving into the city at any hour of the morning on work days and there's only traffic if there's an accident.

Plus, lots of feds will still be on leave. Lots of people burned use or lose these last 2 weeks of Dec and so are starting the year completely maxed out already.

That's gonna be a problem for a lot of people.

People need to get some hiking boots and break them in!

20 miles is a Long Fucking Way to walk!!

Even out of shape pedes *could* do it, with lots of breaks, but the longer you're out there, the more food and water you'll need.

Damn, I think I need to bring my full size hiking pack! Lol

But then how will I wear my gun pack, that holds two rifles and 3 hand guns, and lots of mags? (I know, local laws are shit for guns) just joking

As someone who has worked in DC on and off for years: Take the Metro. It'll be fine. Take the Red line if you insist on going through Maryland for some reason.

Take the Orange line (stations on Interstate 66) if you come from the West.

Do NOT go to/through Maryland on the Orange or Silver line.

Stay out of SE DC in general.

Top tips:

- DO NOT rely on a metro line or a bridge to get you to downtown DC the day-of
- if possible stay downtown (expensive I know)
- if not possible, staying in MD and entering via road probably best - RESEARCH PARKING BEFOREHAND
- if in a large group, leave very early and walk in
- EXPECT CHECKPOINTS - think long and hard about the items you may be carrying or concealing
- expect anything south of K street to be heavily blockaded and closed

See my comment on the other thread.

If you originate out of the lines running into Northern VA or from Silver Spring and similarly north, you will be ok.

You want to stay out of the District and its stations.

You come into DC from the further reaches on the Metro lines, and watch the graffiti as you ride in.

This is war.

The left will pull out all the stops to keep as many Trump's supporters as possible from showing up.

DOES ANYONE THINK THE LEFT WON'T THREATEN FLIGHTS, SHUT DOWN BUSSES AND TRAINS?

And that's just the foot soldiers.

ANY LEFTIST WITH ANY POWER WILL TRY TO OBSTRUCT AND STRAND US.

If it is at all possible: GET TO DC WITHOUT HAVING TO RELY ON ANY SYSTEM OF TRANSPORTATION.

DO YOU THINK BOMB THREATS ARE BEYOND WHAT THE LEFT IS WILLING TO DO?

DO YOU THINK DC POWERS WOULD HESITATE TO SHUT DOWN PUBLIC TRANSPORT?

ASSUME THAT EVERY THING THAT CAN BE SHUT DOWN WILL BE SHUT DOWN

Travel safely in groups that you can trust. Have plenty of gas in your tanks. Have enough supplies to be able to comfortably and warmly sleep in your cars.

DC is the ENEMY BASE. The Left will protect it. The Left will try to keep us out. The Left will try to keep us contained. Don't give them the chance.

Safe travels, and have a plan that can't be canceled from afar.

Don't expect to be helped to cross the Rubicon!

Do not be so alarmist, have you even been to DC before? It's not called the subway, it's the DC metro. And yes, there are bad neighborhoods but they are easily avoided (Ie, avoid the Green line). the Metro is designed for moving MASSES of people efficiently and safely.

Now, if they decide to shut it down, that's something else entirely, but pretty unlikely given the consequences on local transportation.

So the post sounds like someone who has never been in DC and never been on the subway. Over 1 million people travel on the subway every day. It has been pre-Covid about 2 million daily. In 2020 there have been only 683 crimes committed on the rail.

There is not a line that I have not traveled on for the past 15 years. You need only to beware of a couple of lines on the east side of the Capitol. You can travel now from Dulles Airport area to the mall.
